

Wilson County Plan for Re-Opening

PURPOSE AND INTRODUCTION

As we approach the final days of Kansas's "Stay Home" order, this document has been prepared to offer guidance on a safe, stepwise reopening of Wilson County. We must continue to take measures to ensure the safety of our most vulnerable people and continue to ensure our healthcare resources are not overburdened. In an effort to do this, the Wilson County Health Department and County Health Officer present here three "phases," each of which represents a different level of guidance to help save lives and reduce transmission of the COVID-19 virus. This document serves as the local orders for Wilson County. This is a working document and is subject to change depending on state mandates and local conditions.

We understand that restarting economic activity is one of our county's priorities at this time along with keeping our community safe and limiting the spread of COVID-19. This is a critical time to be thoughtful and careful about reopening Wilson County. We do not want to have to return to a "Stay Home" order and believe that a safe, stepwise approach will allow Wilson County to accomplish this goal.

Jennifer Bacani McKenney, MD, FAAFP
Wilson County Health Officer

Destany Wheeler
Wilson County Health Department Administrator

Submitted May 1, 2020

Revised May 10, 2020

Revised May 14, 2020

GUIDING PRINCIPLES TO BE FOLLOWED THROUGH EACH PHASE

- State restrictions must allow for the actions included in each phase.
- To move from one phase to the next, all of the following criteria must be met:
 - Local indicators must show decreasing or stable transmission or an increase consistent with the state's epidemiological rate for at least 14 days before the beginning date of the next phase;
 - Sufficient testing must be available;
 - Sufficient Personal Protective Equipment must be available;
 - Hospitals must have the capacity to treat an increased number of COVID-19 patients requiring hospitalization;
 - The public health system must be able to promptly identify and isolate infected individuals and identify and quarantine necessary contacts.
- When able, staying home is recommended.
- Social distancing measures should continue to be followed:
 - Stay 6 feet away from others;
 - Interact only with people of the same household when possible;
 - Minimize non-essential travel.
- Masks should be worn in all public settings
- Practice good hand hygiene by washing hands with soap and water or using hand sanitizer frequently
- Avoid touching your face, mouth, nose, or eyes.
- Symptoms of COVID-19 include (but are not limited to) fever, cough, shortness of breath, sore throat, headache, chills, aches, fatigue, loss of smell or taste, nausea/vomiting, diarrhea.
- People with symptoms of flu-like illness should stay home.
- Check in (via phone/letter/text/email) with friends and family who are isolated.
- Businesses, organizations, or facilities may have stricter regulations than what are listed below but may not have less strict regulations.
- Vulnerable/High risk individuals and senior citizens should stay home as much as possible. They should stay in contact with their health care provider. They should not congregate with others who are not members of their immediate household.
- The reason for keeping a log of visitors or customers is to aid in contact tracing. Information must include date, name, and phone number. A sample form, which may be used, is attached.
- Thorough cleaning must follow the CDC's "Guidance for Cleaning and Disinfecting," which may be found at https://www.cdc.gov/coronavirus/2019-ncov/community/pdf/Reopening_America_Guidance.pdf.

APPENDIX

- Supporting documents and resources are attached at the end of this plan.

Wilson County Reopening Plan Summary 5/1/2020	Phase 1	Phase 1.5	Phase 2	Phase 3
